## COUNSELING SERVICES

### Therapy Sliding Scale Application

#### **Making Therapy Accessible**

I believe that mental health care should be available to everyone, regardless of financial circumstances. To support this commitment, I offer a limited number of sliding scale therapy spots for individuals experiencing financial hardship.

#### **What Is a Sliding Scale?**

A sliding scale adjusts the session fee based on your income and financial situation. This allows you to pay what is affordable for you, while still supporting the sustainability of therapy services.

#### **Who Qualifies**

Sliding scale rates are designed for clients who:

- Are students, underemployed, or experiencing financial hardship
- Have significant life expenses (medical bills, caregiving costs, etc.)
- Would otherwise be unable to access therapy at full rate

*Please note that sliding scale spots are limited and availability may vary.*

#### **Confidentiality**

All information provided in this application is confidential and used solely to determine eligibility for a reduced fee. Your privacy and dignity are always respected.

### What Happens Next

After you submit your application, I will review it and contact you within 3–5 business days to discuss available options. Approval for the sliding scale is based on need and current availability.
